

Chris McCabe

Geography trainee teacher

How did you find out about our teacher training?

My wife is a teacher in Redcar, and her Headteacher told me about AGS and the SCITT programme. I live in Sunderland but Acklam Grange had a great reputation for trainee teachers.

What was your route into teaching?

I was made redundant from a role in 2019, following that I did different short term jobs and my previous career training meant that there were not many jobs in the North East. Therefore, I was looking for something different but where there might be prospects to stay in the North East in the future.

How did you find the process from applying to starting?

The process was straightforward and the support from Claire, the Teaching School Lead, was excellent.

How would you describe your time at AGS so far?

Excellent! I feel the school is very well organised and well set up to support, coach, train and mentor trainee students. It's been the best part of the overall experience so far.

Well set up to support, coach, train and mentor trainee students!
