

Ilsa Mehboob

English trainee teacher

How did you find out about our teacher training?

I found out about the teaching school as my brother attended this school, and I really liked what Acklam Grange was doing in regard to PRIDE lessons. It made me want to become part of the school once I found out online that there were teaching placement opportunities.

What was your route into teaching?

My route into teaching started with going from college to university, and then I applied for teacher training at Acklam Grange straight after finishing university.

How did you find the process from applying to starting?

I'm enjoying the training and everyone is really helpful and friendly.

How would you describe your time at AGS so far?

So far, my time at AGS has been really good. I have been especially grateful for the CPD training that I received, as it has really helped with my overall training.

What has been your favourite part so far?

My favourite thing is being part of a wide community of teachers who are always looking to make learning engaging and enjoyable for the students.

The teachers are always looking to make learning engaging and enjoyable.
